Work Experience

ASML

SQA Engineer 3

SQA Engineer 2

Test Engineer

San Jose, CA

Mar 2025 – Present

Oct 2023 – Mar 2025

Jul 2023 – Oct 2023

- Improve overall bug verification speed (60%); have completed ~275 reports and ~500 verifications in 2 years, ranking top 3 in the SQA department and achieving 0 quality-driven hotfixes
- Co-owned testing of the industry-leading SEMI P49 MULTIGON solution, reducing bug report/verification turnaround time by 80%
- Independently develop an I/O file tracking tool adopted by 60+ engineers across 8 teams
- Build and maintain 25 regression suites (800+ cases), raising regression tracking to 100%, expanding automation by 25%, and contributing 25% of PRs in the SQA repo
- Enhance GPU test suite coverage 20x, cutting average bug detection time to <1 day
- Author knowledge-sharing for 7 products; accelerate EPDS/TPS writing by ~2 weeks per ticket

Allgress

Software Engineering Intern

Livermore, CA

Jun – Aug 2017

- Built client-facing web applications using Google Polymer and Node.js to improve usability

Education

University of California, Berkeley

B.A. in Computer Science

Berkeley, CA

December 2021

Relevant coursework: Data Structures, Discrete Mathematics, Machine Structures, Information Devices, AI, Software Engineering, Operational Systems, Data Science, Databases

Project: Co-led team of 6 to improve national CS education program, boosting engagement for 600 teachers

Projects

Warbot Suite – Discord Automation and Analytics Platform

Nov 2020 – Aug 2025

- Independently built a scalable Python-based Discord bot with discord.py and GraphQL API integration, serving 200+ users and processing 150k+ automated messages
- Designed modular cog architecture supporting 100+ commands with async API calls
- Developed algorithms for real-time operations and tracking with persistent storage in SQLite/CSV
- Integrated data visualization and AI chatbot functionality for analytics and user interaction

Skills

Languages: Python, C++, JavaScript, HTML/CSS, Java, SQL/GraphQL

Tools: Git, Linux, REST APIs, Jira/Confluence, qTest

Testing/Automation: Robot Framework, Lua, regression suites, CI/CD

Libraries: NumPy, SciPy, Pandas, Matplotlib

Leadership and Activities

CodeBytes, Founder

Jun 2015 – 2018

- Trained and collaborated with 8 tutors to teach programming to 30 elementary and middle school students through 3 large projects and weekly assignments

DVMS MathCounts, President/Head Coach

Sep 2015 – 2017

- Led 20 coaches and 250 middle school students in regional math competitions, achieving 1st, 2nd, and 3rd place finishes across events for the first time in history
