Work Experience

ASML

SQA Engineer 3

SQA Engineer 2

Test Engineer

San Jose, CA

Mar 2025 – Present

Oct 2023 – Mar 2025

Jul 2023 – Oct 2023

- Improved overall bug verification speed by 70%; completed 350+ reports and 600+ verifications in 3 years, ranking top 3 in SQA defect throughput while maintaining zero production hotfixes caused by QA escape defects
- Led a cross-team coordination effort across 3 product groups and 9 QA engineers to deliver a customer-critical feature 2 weeks ahead of schedule
- Co-owned testing of the industry-leading SEMI P49 MULTIGON solution, reducing bug report/verification turnaround time by 80%
- Independently developed a Python-based I/O file tracking tool adopted by 60+ engineers across 8 teams
- Built and maintained 25 regression suites with 800+ cases, achieving 100% tracking and 25% increased automation
- Authored new regression suites in a single release cycle using AI-assisted development, exceeding prior cycle output and coverage by 50%
- Enhanced GPU test suite coverage 20x, cutting average bug detection time to <1 day
- Optimized a job-scanning diagnostic tool, reducing runtime from 17 hours to 10 minutes
- Authored technical documentation and knowledge-sharing for 10+ products; accelerated doc writing by 2+ weeks per ticket

Education

University of California, Berkeley

B.A. in Computer Science

Berkeley, CA

December 2021

Relevant coursework: Data Structures, AI, Software Engineering, Databases

Project: Co-led team of 6 to improve national CS education program, boosting engagement for 600+ teachers

Projects

Warbot Suite – Discord Automation and Analytics Platform

Nov 2020 – Present

- Independently built a scalable Python-based Discord bot with discord.py and GraphQL API integration, serving 200+ users and processing 150k+ automated messages
- Designed modular cog architecture supporting 100+ commands with asyncio API calls
- Developed algorithms for real-time operations and tracking with persistent storage in SQLite/CSV
- Integrated data visualization and AI chatbot functionality for analytics and user interaction
- Deployed to AWS EC2/Oracle Cloud via PM2, maintaining 99.9% uptime

Skills

Languages: Python, C++, JavaScript, HTML/CSS, Java, SQL

Tools: Git, Linux, REST APIs, GraphQL, AWS EC2, Oracle Cloud, PM2, Jira/Confluence, GitHub Copilot, LLM API integration

Testing/Automation: Robot Framework, Lua, regression automation, CI/CD, qTest
